Additional Classes and Programs at arrowhead POOL

AQUA FIT DEEP: Uses deep water jogging and exercises to challenge and strengthen the entire body including the core. This class is held in 6-12 feet of water, in a vertical position, feet not touching the bottom to improve overall fitness. Flotation belts, noodles and other equipment are used but comfort in the water is recommended.

tAQUAta SHALLOW: Aqua + Tabata = tAQUAta! This course is based off of the Tabata workout which uses High Intensity Interval Training to improve cardiovascular and metabolic systems. This course uses the natural resistance of shallow and deep water* to provide power moves without impacting joints. tAQUAta offers a balanced emphasis on cardio, strength, and the core throughout the session (3.5 to 5 ft. deep).

The City of Chandler encourages fitness through swimming. The intent of this program is to provide an adult lap swim fitness program. However, circumstance may allow some youth and teens to participate. All children under the age of 15 will be asked to complete a 500 yard continuous (no stopping) swim test and have a swimming ability equivalent to the American Red Cross Level VI or the City of Chandler's Marlin's level.

There will be no lap swimming on the following holidays:

- Monday, May 26, 2014 – Memorial Day
- Monday, September 1, 2014 – Labor Day

AQUA FIT DEEP: Uses deep water jogging and exercises to challenge and strengthen the entire body including the core. This class is held in 6-12 feet of water, in a vertical position, feet not touching the bottom to improve overall fitness. Flotation belts, noodles and other equipment are used but comfort in the water is recommended.

tAQUAta SHALLOW: Aqua + Tabata = tAQUAta! This course is based off of the Tabata workout which uses High Intensity Interval Training to improve cardiovascular and metabolic systems. This course uses the natural resistance of shallow and deep water* to provide power moves without impacting joints. tAQUAta offers a balanced emphasis on cardio, strength, and the core throughout the session (3.5 to 5 ft. deep).
